

# CONTROL AND MANAGE YOUR MEDICATIONS & IMMUNIZATIONS FOR LIFE

## Before you vax, get myVax

**myVax™** is an affordable, secure, single-system platform that helps you store, access, manage, and own your health data, along with your family's, and connects you to your entire care team instantly.

### Manage your vaccine history

Access real-time vaccine history, important next dose dates & alerts, and find vaccine locations near you.

### Access lab tests & medications

Track lab reports, symptoms, prescription medications and your vitals to improve your immunity to disease and wellness.

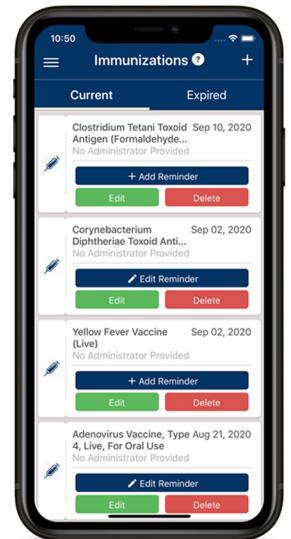

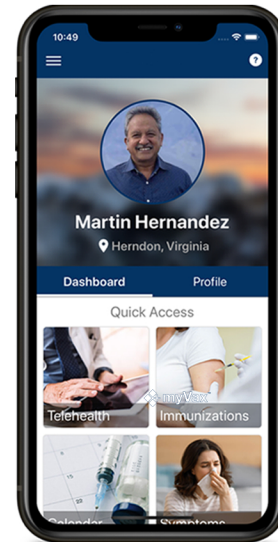

### Share easily and securely

Share your health information with your doctor, school nurse, pharmacist or care provider and always retain complete control of who views your information.

### Own and control your data

myVax™ is hosted on a HIPAA, HITECH, & NIST compliant environment and follows the strictest security and privacy guidelines to ensure your data remains safe and in your control.
