

Automated Coupon Verification (ACV)™

MEDICAL BENEFIT ELIGIBILITY DETERMINATION

AUTOMATING DRUG COUPONING IN A WHOLE NEW WAY!

EagleForce ACV works with plan sponsors to automate the drug couponing process

- Supports a multibillion-dollar business for drugs billed under medical claims.
- Applies real-time pre-edits to ensure coverage compliance.
- Extracts the needed information and routes to the plan sponsor of your choice.
- Results in faster, better, more efficient coupon processing

Real-Time Risk Management and Mitigation

- The strict regulatory environment means violations are costly—\$73,000 per event.
- EagleForce has performed this check on pharmacy drugs for over 10 years and is known as the government's "best effort" standard.
- Plan sponsors and manufacturers now have the tool to verify and process medical coupon and claim filings automatically!

WHY ACV

The EagleForce proven Adjudicator™ technology, distinguished as the “Best Effort Standard” for screening Pharmacy claims for Rx Benefit allocation, is now positioned to also screen Medical Claims for Mx benefit allocation.

ACV analyzes all Government Plans including Medicare, Medicaid, VA, CHIP, DoD, IndianHealth Services, and Bureau of Prisons
